

& phytosanitary measures

Harnessing the Power of **Digital Technologies** to Protect Plants & the Environment

Farming System Orchard

Pathogens Verticillium dahliae (Fungus),

Pseudomonas savastanoi (Bacterium)

Importance RNQP Location GREECE

Farming System Vineyard Pathogens Grapevine leafroll disease GLRaV-1 & GLRaV-3 (Virus),

Candidatus Phytoplasma solani

(Bacterium)

Importance RNQP Location FRANCE

Farming System Wild Forest Pathogen *Ceratocystis platani* (Fungus) Importance Quarantine

Location GREECE

Farming System Orchard Pathogen **Neofabraea alba** (Fungus)

Importance RNQP Location **NEW ZEALAND**

Farming System Arable Pathogen Ralstonia Solanacearum (Bacterium)

Importance Quarantine **Location ITALY**

Farming System **Arable** Pathogen Potato leafroll virus (PLRV) (Virus) Importance RNQP

Location **LITHUANIA**
